

SECOND WEEK

- What do I want to learn or understand better?

Haven't done much since last week, it's pretty much the same.

- How can I help someone else, or the entire team, to learn something new?

Haven't done much since last week, it's pretty much the same.

- What is my contribution towards the team's use of Scrum?

We don't have a Scrum at the moment so I can't really answer this question this week.

- What is my contribution towards the team's deliveries?

To deliver myself and to help others when they get stuck on an assignment. We started a figma to design our GUI, haven't done much on that part yet but it will be a continuous work so I will contribute more next week. But in the planning it went well and I think I contributed.
